

Public Works Department Capital Projects Division Materials Testing & Inspection Laboratory

Stanley Palmer Engineering Center
4721 Coal Mine Road
TESTING REQUEST HOTLINE 816-513-4720

DATE: February 17, 2016

TO: City Planning & Development Department – Land Development Division
Project Managers, Construction Managers and Inspectors

FROM: Mark Montgomery, P.E. *mm*
City Materials Engineer

SUBJECT: City of Kansas City, Missouri – PW Quality Management Plan
Approved 3rd Party Testing Laboratories

The KCMO-PW Materials Testing Laboratory serves City project & construction managers and inspectors providing confirmation and acceptance testing on materials and material preparations used in construction of public infrastructure within City right-of-ways and easements. This testing satisfies the “Materials Testing Requirement”, per City specification (ref. <http://kcmo.gov/publicworks/design-construction-standards/>). Dial 816-513-4720 to schedule testing.

In lieu of utilizing the KCMO-PW Materials Testing Laboratory, the following “Approved 3rd Party Testing Laboratories” may also be called on to perform required testing:
